ALL PURPOSE VIDEO....TMI & INTERSTATE INDUSTRIES, INC

PURPOSE IS TO DEMONSTRATE BY SIGHT AND SOUND, THE VALUE OF HEMI-SYNC SOUND PRODUCTS AND PROGRAMS, THE ORIGINS AND DEVELOPMENT OF THE PHENOMENON, THE EXPERIENCES TO DATE, AND THE POTENTIALS THAT EXIST IN THE PROCESS.

IT MUST BE AIMED NOT ONLY AT AN UNINFORMED VIEWER, BUT AT THE PROFESSIONAL AND TECHNICIAN. IT ALSO MUST BE IN PART, AT LEAST, AN EXPRESSION OF THE CREATIVITY AND ORIGINALITY THAT IS THE REPUTATION OF THE INSTITUTE - WITHOUT RESORTING TO THE TYPICAL GIMMICKRY THAT IS SO COMMON IN THE AUDIO-VISUAL MEDIUM.

ONE APPROACH IS TO ILLUSTRATE THE SELF-IMPOSED LIMITATIONS OF THE AVERAGE HUMAN, THEN DEMONSTRATE HOW THE PROCESS IS AIMED FIRST AT A CLEARER UNDERSTANDING OF WHAT HUMANS ARE. SECOND, ILLUSTRATE HOW SUCH LIMITATIONS CAN BE OVERCOME THROUGH THE INDIVIDUAL CONTROL OF BODY, MIND, AND OTHER ENERGIES THAT AFFECT HUMAN PHYSICAL EXISTENCE - ALL THROUGH WORKING WITH THE HEMI-SYNC PROCESS.

THE NEW LABEL OF THE ENTIRE PROCESS IS LIFE SPAN. THE SYSTEM WILL EVENTUALLY PROVIDE LEARNING EXERCISES VIA AUDIO AND VIDEO THAT ENHANCE ALL HUMAN NEEDS "FROM PRE-CRADLE TO POST-GRAVE".

.

THE FIRST SEQUENCE WILL BE A DEMONSTRATION OF THE PHASING THEORY RELATIVE TO HUMAN CONSCIOUSNESS AS IT COMMONLY TAKES PLACE. IT BEGINS AT BIRTH, AND CONTINUES MORE OR LESS OUT

OF CONTROL THROUGH PHYSICAL LIFE - SIMPLY BECAUSE THE PRESENT ERA OF HUMANKIND HAS NEVER BEEN FULLY EXPOSED TO THE REALITY OF IT.

THE SECOND SEQUENCE IS A DEMONSTRATION HOW LIFESPAN WITH THE USE OF HEMI-SYNC SOUND HELPS THE LEARNER DEVELOP A DIFFERENT OVERVIEW - TO LIVE MORE PROFOUNDLY AND FULLY BY CONTROLLING MENTAL, PHYSICAL AND EMOTIONAL PATTERNS, BY ACCESSING AND USING VARIOUS STATES OF CONSCIOUSNESS NOT ORDINARILY UNDER THE CONTROL OF THE PHYSICALLY CONSCIOUS MIND.

THE THIRD SEQUENCE IS A DEMONSTRATION OF WHAT HEMI-SYNC SOUND IS, HOW IT CAME INTO BEING, INCLUDING ACTUAL BRAIN WAVE PATTERNS CREATED BY THE PROCESS. IT CLOSES WITH TESTIMONIAL INTERVIEWS WITH THOSE WHO HAVE UTILIZED SEGMENTS OF THE LIFESPAN SYSTEM AND THE RESULTS OBTAINED, AS WELL AS ILLUSTRATIONS OF THE ACTUAL RESULTS.

THE FOURTH SEQUENCE LISTS THE BASIC LEARNING SYSTEMS OF LIFESPAN , MANY OF WHICH ARE STILL IN THE PLANNING STAGE. IT ALSO INCLUDES MANY OF THE SPECIALIZED APPLICATION, SOME OF WHICH ARE ALREADY AVAILABLE.

THE FIFTH SEQUENCE IS A DEMONSTRATED PREDICTION OF THE PATTERN OF HUMAN EXTENDED LIFE AFTER LIFESPAN IS COMPLETED AND IN USE BY A MAJORITY OF THE SPECIES WORLD-WIDE. IT PORTRAYS PRINCIPALLY THOSE ADULTS WHO HAVE BEEN TRAINED SINCE INFANCY IN THE HEMI-SYNC PROCESSES OF LIFESPAN. IT BECOMES APPARENT THAT SUCH DIFFERENT OVERVIEW COULD BECOME A MAJOR EVOLUTION FOR THE HUMAN SPECIES.

.

T H E P H A S E S

PHASE 1 - WHERE THE HUMAN CONSCIOUS MIND(HCM) IS TOTALLY IMMERSED IN THE SENSORY INPUT OF PHYSICAL MATTER - 100%

PHASE 1-A ONE PART OF HCM IS OUT-OF-PHASE(OPH), SUCH AS THINKING, DAY-DREAMING, ANY MENTATION NOT DEPENDENT UPON PHYSICAL SENSORY INPUT - (HCM FOCUS ON PHASE 1: 80%)

PHASES 2-9 WHERE THE OUT-OF-PHASE PORTION OF HCM IS ENGAGED IN ACTIVITY THAT IS AN APPARENT REALITY WHICH CO-MINGLES AND OFTEN MERGES OR INTERFERES WITH PHASE 1. OFTEN HCM IS UNABLE TO DIFFERENTIATE BETWEEN PHASE 1 AND THE OPH STATE. THESE ARE USUALLY THE PRODUCT OF DRUGS, ALCOHOL, CHEMICALS, PSYCHOSES, PHYSICAL HEAD INJURIES, BODY DYSFUNCTION/ILLNESS, ETC. (HCM PERCENTILE REMAINING IN PHASE I RANGES FROM 90% TO AS LOW AS 20%)

PHASES 10 -15. STAGES 1 AND 2 OF SLEEP. (PERCENTILE OF HCM IN PHASE 1 RANGES FROM 55% TO 75%. THIS PORTION USUALLY IS ISOLATED FROM THE OPH SO THAT LITTLE RECALL IS AVAILABLE. LIFESPAN METHODS REVERSE SUCH PERCENTILES, WITH MORE OF HCM IN THE OPH STATE THAN IN PHASE 1. THE RESULT IS THAT HCM NOT ONLY HAS FULL RECALL, BUT ACTIVE CONTROL OF THE OPH STATE.)

PHASES 16-21. STAGES 3 AND 4 OF SLEEP.(USUALLY REMAINING PERCENTILE IN PHASE 1 DROPS TO AS LOW AS 20%, AND HCM ACTIVITY IN THE OPH STATE IS USUALLY ISOLATED FROM THAT PART OF HCM DEDICATED TO PHASE 1, PRIMARILY DUE TO AN INABILITY TO COMMUNICATE. LIFESPAN REMOVES SUCH ISOLATION THROUGH TRAINING, BROADENING THE

PHASE 1 PERSPECTIVE OF HCM.)

PHASE 22. THOSE IN COMATOSE STATES, WHERE LESS THAN 5% OF HCM STILL RESIDES IN PHASE 1. THIS ALSO INCLUDES DEEP STATES OF ANAESTHESIA. AT THIS POINT, HCM IN OPH IS ACTIVE IN FORMS AND ATTITUDES REMOTE TO AND OFTEN BEYOND THE AWARENESS CAPABILITY OF PHASE 1.

PHASE 23 AND BEYOND. WHERE 100% OF HCM IS OPERATING COMPLETELY SEPARATE FROM THE CONFINES AND ORGANIZATION OF PHASE 1. LIFE SPAN PROVIDES MEANS WHEREBY HCM STILL IN RESIDENCE IN PHASE 1 CAN EXPLORE SUCH PHASE STATES TEMPORARILY, SO AS TO GAIN KNOWLEDGE AND EXPERIENCE BENEFICIAL TO HCM IN THE PURELY PHYSICAL EXISTENCE.
